Wednesday, May 18, 2022 @ 12:00 to 13:00

LEARNING OBJECTIVES:

At the end of the presentation, participants should be able to:

1. Recognize the differences in the diabetes burden and trends between indigenous Canadians and non-indigenous persons
2. Describe the spectrum of factors that account for these differences including biological, socioeconomic, and historically based biases
3. Summarize how wealth gaps have driven health gaps in marginalized populations
4. Indicate the key changes that are required to close the disparity gaps in diabetes care, including more intentional appreciation of the contributions of racism

EVALUATION & ATTENDANCE:

via deptmedicine.utoronto.ca/CWMGR-2022-05-18

Attendance for Maintenance of Certification credit will only be tracked if evaluation and attendance surveys are completed.
